### Kansas State Park Risk Assessment

### State Park Basics

- Number of parks: 26
- Acres: 31,568 + 51 miles
- Campsites: 8,920
- Cabins: 114
- Avg. attendance per year: 6,817,481
- Avg. attendance April-Sept.: 5,223,890
- Avg. percentage April-Sept.: 74%
  - -Ranges: 52-85%

### Severe Weather & Survey

### Severe weather per site

- Avg. Severe
   Thunderstorm Warnings
   per year: 10
- Avg. Tornado Warnings per year: 1
- Avg. events per year: 2
  - Hail: 1
  - **Wind: 1**
  - Tornado: 0
- Seems low, but report has to come from the park or within 2 miles

### Survey

- 8 questions to parks about weather decisions for site
- Main source of info: law enforcement – once warning is issued
- Lack of communication prior to event to make informative decisions
  - Is NWS sending briefing packets/sit reps to parks
  - Are EM's sharing these reports

### Communicate

- Talk to your partners/team and find out their needs
- How many of you have never been to your local NWS office?
- Why?
  - We are here to serve you
- I encourage you to meet with local NWS
  - We are here to serve and help
